

Juniper One-day EX Switching and Mist Wireless Bootcamp

PNW Security & Juniper Networks are offering a Juniper Bootcamp in Bend!!!

This course will provide an overview of JUNOS and an introductory preview of the Juniper EX Switching and Mist Wireless products including configuration, management, and implementation in a typical network environment. Students will gain experience in configuring and monitoring the JUNOS OS and monitoring EX Switch operations. Students will be working on their own physical EX switch. Everyone goes home with a VM Version of JUNOS.

Date: Wednesday, July 24, 2019
Time: 9:00 AM – 4:00 PM
Where: Old St. Francis School, Rambler Room - 700 NW Bond St. - Bend
RSVP to: fred@pnwsecurity.com
Cost: No charge

*****Lunch provided*****
